

## Areas of Use

For the strengthening of corners of external thermal insulation systems. Embedded in the base coat, it improves the protection and mechanical resistance of the corners and makes unnecessary the overfolding of the fiberglass mesh at the corner.

## Packaging

2,5 m x 50 pcs= 125m/bundle

## Advantages

- Reduces labour costs.
- Saves time.
- Provides a smooth surface in the render layer.
- Protects window and door edges and the corner surfaces of the building against damage.

## Technical Values

|                                             |             |
|---------------------------------------------|-------------|
| Thickness of PVC Profile, mm                | ~1,1        |
| Width of PVC Profile, mm                    | 22 x 22     |
| Length of PVC Profile, cm                   | 250         |
| Width of Fiberglass Mesh, cm                | 10+10 ± 0,5 |
| Length of Fiberglass Mesh, cm               | 250         |
| Weight of Fiberglass Mesh, g/m <sup>2</sup> | 110         |
| Bonding Strength of Fiberglass Mesh, N      | 30-50       |
